Rethinking Agricultural Policy Regimes: Food Security ...

Rethinking Food and Agriculture explores and uncovers some of the key historical, ethical, economic, social, cultural, political, and structural drivers and root causes of unsustainability, degradation of the agricultural environment, destruction of nature, short-comings in science and knowledge systems, inequality, hunger and food insecurity, and disharmony. It reviews efforts towards ' sustainable development ', and reassesses whether these efforts have been implemented with adequate ...

Rethinking Agricultural Policy Regimes Food Security ...

For many decades debates about the future of developed world agriculture policy have been dominated by a long political conflict between European/multifunctional policy regimes and the global trend towards trade liberalisation. The stalemate that had emerged between these two positions by 2000 has n...
